

Deluxe Rodent Station

Station shown with available weighted base.

The newest addition to B&G's reusable bait stations

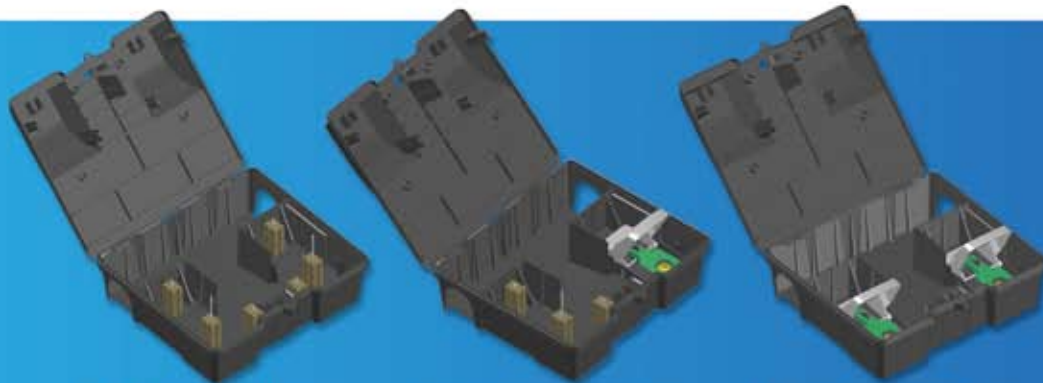

TECHNICAL SPECIFICATIONS:

- » Can be used with baits, snap traps or a combination of both.
- » High capacity bait chamber utilizing both horizontal and vertical bait positions.
- » Can hold up to 2 snap traps.
- » Low profile design for increased rodent activity along with domed area for accommodation of snap traps.
- » Tamper resistant design with cover fully recessed into base.
- » Internal baffles keeps untargeted animals from reaching the bait chamber.
- » Single lock design cuts down on service time.
- » Cover can be removed from base for easy service.

SPECIAL FEATURES:

- » Ramped entrance into bait chamber prevents any water from contaminating the bait.
- » Quick and easy station cleaning.
- » For additional security or placement of a bait identification card, there is a hole in the front of the station that allows the cover to be secured to the base by means of a zip tie or lock.
- » Uses a wide variety of snap traps.
- » When used with snap traps, can be outfitted with the exclusive Patented Alert System.
