

Rodent Control Products

Rodent Bait Station

B&G's Rodent Bait station is specially designed for the Professional Pest Control Market. This station offers superior design at close to half the price of the competition.

Technical specifications:

- High capacity bait chamber
- Low profile design for increased rodent activity
- Bait placement can be done both horizontally and vertically
- Quick and easy cleaning of the station
- For additional security there is a hole in the front of the station that allows you to secure the cover to the base with a lock or zip tie
- Ramped entrance into bait chamber helps prevent any water from entering and contaminating bait
- "Single" lock design decreases service time
- Can be flush mounted against a wall or structure for maximum effectiveness
- When flush mounted, lid will remain open for easy servicing
- Recessed cover – Does not allow for hands or fingers to attempt to pry open station

Special features:

- Heavy duty design using thick walled plastic – Can withstand "stepping on" without any damage to the station
- Rotating hinge design provides for years of dependable service without the worries that are found with most stations that use a hinge that is permanently attached to the base

Sales features:

- Economically priced – at about half the price of the competition but offers improved features compared to other "high end" rodent stations
- Private labeling available
- Retail packaging available
- Heavy duty key and rod packs included
- Attractive high tech look

Deluxe Rodent Station

The newest addition to B&G's reusable bait stations. Multifunctional high tech design at an economical price.

See a video of these products in action at www.bgequip.com

Technical specifications:

- Can be used with baits, snap traps or a combination of both
- High capacity bait chamber utilizing both horizontal and vertical bait positions
- Can hold up to 2 snap traps
- Low profile design for increased rodent activity along with domed area for accommodation of snap traps
- Tamper resistant design with cover fully recessed into base.
- Internal baffles keeps untargeted animals from reaching the bait chamber
- Single lock design cuts down on service time
- Cover can be removed from base for easy service

Special features:

- Ramped entrance into bait chamber prevents any water from contaminating the bait
- Quick and easy station cleaning
- For additional security or placement of a bait identification card, there is a hole in the front of the station that allows the cover to be secured to the base by means of a zip tie or lock
- Uses a wide variety of snap traps
- When used with snap traps, can be outfitted with the exclusive Patented Alert System

Can be used with a variety of bait placement

Can use a combination of bait and trap

Fast Catch Station

The Fast Catch station is available in two different models, the first is a station-only design and the second is our "Rodent Alert" design. This Patent pending design features a "pop up" alert that will notify you that the snap trap has been triggered.

- Heavy duty construction
- Easy open single lock design
- Reusable – designed for years of service
- Tamper resistant – lid recesses into base
- Low profile design for increased rodent activity
- Fits all professional rat snap traps and includes bait rods
- Long entry pathways keeps the rodent hidden after catch
- Pop-outs in rear of station allows for attachment to pipes or any other object by use of cable ties

Great places to use the Fast Catch:

- Sensitive Accounts – where rodenticide is banned
- Residential Accounts – keeps rats hidden from occupants
- Commercial kitchens, restaurants and office complexes

Rodent Station Attachment System

Technical specifications:

- Attaches any B&G rodent station to a 12"x12" paver block
- Installs in less than 30 seconds
- Heavy duty metal construction
- Patent pending design
- Economical cost

Special features:

- The station attachment system consists of 2 clamps, a metal screw and washer. It is designed for use with a 12"x12" (1.5" thick) concrete paver, and only with B&G rodent stations
- Easy and economical way to secure the Fast Catch and rodent bait station
- Holds station securely to block and is reusable

Refillable Mouse Bait Station

Technical specifications:

- Low profile design for increased rodent activity
- Child and Pet Resistant – Bait cannot be touched through access points in station
- Can be used with a vertical or horizontal bait rod that will hold the bait firmly in place
- Recessed cover – Does not allow for hands or fingers to pry open station
- Single Key quick entry – Cuts down service time
- Economically Priced – Offers many improved features as compared to other mouse bait stations

Special features:

- Large bait chamber allows multiple mice to feed at one time
- Heavy duty design – Can withstand stepping on without damage to station
- Rods held firmly in place when cover is closed
- Rods can be stored inside station when not in use
- Rod pack and key included
