

PRIMELINE COLOR OPTIONS

Colored Tops & Bottoms for the 1-gallon Stainless Steel Sprayers

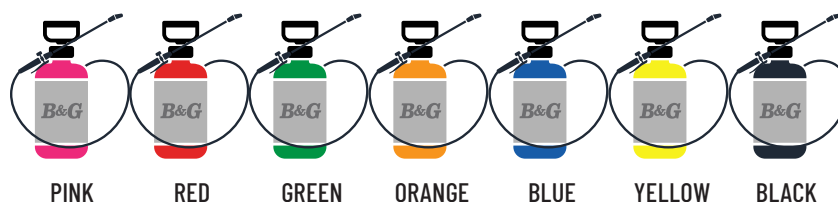

B&G

FEATURES & BENEFITS

Upgrade your existing Primeline Sprayer by replacing the black tops and bottoms with vibrant colored options. Alternatively, create a brand new look by mixing and matching top and bottom colors to differentiate your sprayers from each other or personalize them to your liking.

- **BOOST BRAND VISIBILITY:** Use your company colors to create a cohesive and memorable impression.
- **DURABLE:** Made of the same rugged material as the traditional black tops/bottoms.
- **TEAM SPIRIT AND SUPPORT:** Display your team spirit with your favorite sports team's colors.
- **CAUSE AWARENESS:** Show your support for important causes by choosing sprayer colors that symbolize awareness. Raise awareness for breast cancer with our pink sprayers or support environmental initiatives with our green options.
- **FORMULATION DIFFERENTIATION:** Easily distinguish between different formulations with color-coded sprayers.
