FIRST AID KITS

Same as the Gasket kit but includes higher volumes of all parts. Good for conducting Care and Maintenance classes for an entire office.

Sprayers with Extenda-Ban valve	22050400	FA-600-D
Sprayers with Ban-Drip valves	22050300	FA-600-B

GASKET KITS

Designed for rebuilding sprayers. Includes the most commonly needed parts when repairing a sprayer.

Sprayers with XR valve	22049600	GT-100
Sprayers with Extenda-Ban valve	22050100	GD-124

FIRST AID KITS

Technician Emergency Kit: Commonly needed parts for most B&G equipment. Includes easy to understand drawings of parts, repair hints, and refill quantities. Works in conjunction with the Office Emergency Kit as a refilling station.
Order#: 23088125
Model#: TE-125

Office Emergency Kit: A great inventory system for B&G repair parts. Contains more quantities of those parts in the Technician Emergency Kit and also has many less common parts not included in the Technician Emergency Kit. Recommended for office supply rooms. Good for offices with 3-8 technicians. Includes easy to understand drawings of parts, repair hints, and refill quantities.
Order#: 23088126 Model#: OE-126
